

Tip

Easy Heart Shaped Cake

Think you need an expensive, specialized pan to make a heart shaped cake for Valentine's Day, engagement parties, birthdays or showers? Think again! With a few inexpensive items from Dollar Tree, and a few simple steps your friends will think you are a professional baker!

Shop at Dollar Tree – Here's What You'll Need:

- Enough of your favorite cake batter for two cakes (or cake mix and necessary ingredients)
- 8" round cake pan
- 7.5" square cake pan

Easy Step-by-Step Directions:

1. Bake your cake according to the directions, one in the round pan and one in the square.
2. Once cooled, cut the round in half and position on 2 sides of the square cake. If the corners hang off the edges a little, trim the center corners of the half circle until everything lines up (see photo below).
3. Frost by putting glops of frosting around the cake and smoothing over to a flat surface - evening out the natural rise of the cakes.
4. Decorate with candies and sprinkles for a special (and simple!) end to a lovely meal or party!
