Individual Cake Favors

Weddings, potlucks, bake sales, and parties of all kinds are all call for decadent dessert that look good *and* travel well. What if could combine the two in a no-fuss and elegant way? With Dollar Tree you can, and you won't break the bank!

Simply layer chunks of cake and frosting in jars (we used sugar dispensers, but mason jars, recycled jelly containers, or similar lidded jars would work too!) Tie a spoon to the jar with raffia, twine or ribbon and you're done! You've got a perfect way to serve cake at a casual outdoor wedding, give as favors, or deliver to friends and family as a sweet Valentine's treat.

Fun Tips:

- Layer in fresh or dried fruit, pie filling, jams, whipped cream, candies or other sweet stuff to make a fabulous little parfait!
- Make up custom labels for the lids for weddings or little sayings for other special occasions.
